

benefits OF READING to kids

1. Reading Can Open Up New Worlds and Enrich Children's Lives

Kids gain knowledge about how the world works by reading. They can also live vicariously through others by reading a story. Critical thinking skills such as cause and effect, conflict resolution and taking responsibility for one's actions develop through reading.

2. Books Help Children Develop Vital Language Skills

Reading is an essential skill – and the more kids read, the better they become at reading. Reading expands vocabulary!

3. Reading can enhance social skills

Reading with parents, grand parents or siblings is a great way of connecting in a busy life. Going to the library together can enhance social skills as well.

4. Reading Can Improve Hand-Eye Coordination

Reading websites allow children to access books online, clicking through one page at a time. This helps with hand eye coordination and fine motor skills.

5. Reading Can Provide Children with Plenty of Good, Clean Fun

Reading is fun! A good story can free up imaginations and enhance creativity. Kids will want to re read their favourites but that's ok – there is room in their minds for their old favourites as well as new books!
